OUSD Community Schools Partnerships

Ali Metzler, Community School Leadership Coordinator, OUSD

During this session we will learn about Oakland Community Schools and how Community School Managers help support school, partnerships, and district-wide needs. We will have a chance to reflect on how our programs currently partner with OUSD schools, and connect with others around best practices to gain valuable insights.

Questions to consider at your table:

- What kind of partnership do you have with the CSM at your school site(s)? If you don't have a CSM, how do you build effective partnerships with the school(s)?
- What are some best practices you use in building effective partnerships within your school site(s)?
- What are some areas for growth in your partnerships that you identified during the presentation?

Final Reflection: (put slide 10 here)

- What is one thing that you heard, learned, or discussed that you will take back to your program or role to strengthen partnership practice?
