Spring Literacy Forum: Reflections On A Year Of Distance Learning

Parent & Educator Panel

As students head back to classrooms, we bring together a community panel of educators and parents in conversation about their lessons learned and what we might apply to the future of teaching and learning.

Today we will:

- *Reflect on a year of distance learning- examining strategies for parent-teacher communication and remote instruction.*
- *Look at how families/educators overcame obstacles and pivoted to try something different.*
- *Bring forward the best practices of distance learning as we head back to classrooms.*
